EXPERIENCE

O **OPEN-SOURCE** | CONTRIBUTION

AMPLIFICATION| ORGANIZATION-AMPLIFICATION

Open-source backend development platform. Build production-ready services without wasting time on repetitive coding.

- fix(server): inconsistent-capitalization-on-code-generation Needed to do changes in server package in build folder. fixed message of build step in build.service.ts. This improves the consistency and readability of the build.

SEAMLESS-UI| ORGANIZATION-CLUELESS-COMMUNITY

The next gen UI made with simple HTML and Tailwind CSS.

- Created different components in pure tailwindcss for ui library which can be later used in front-end for different framework.
